“Live your dreams no matter what it is. No one is going to experience it but you. Never let your life be in someone else’s hands.”

Doing your best simply means giving all that you have, to achieve a goal or realise a dream. Honest and sincere efforts, in any direction, never go unrewarded. Your hard work is directly proportional to your success. Always plan and work towards a dream, with hardcore dedication and vigorous efforts. One should arise, awake and stop not till our goal is reached. In the words of H. Jackson Brown, “If you are doing your best, you won’t have any time to worry about the failure. The best preparation for tomorrow is doing your best today.” Always remember that there is no substitute for hard work. The fruits of hard work are sweeter than the gifts of fortune. Giving in your best, will give you immense satisfaction and you will face any situation without fear of failure, because you know that you are prepared for almost anything, come what may. So, believe in doing your best, and let the Almighty do the rest.

But before we proceed, an acknowledgement needs to be made. This endeavour would not have been so rich in its flavour, had we not received the unstinting support and guidance from our Principal Mr. Julian Egbert who conceived the whole idea and let it sail through. Our heartfelt thanks to all our friends and well-wishers whose good wishes and prayers have been our inspiration. So enjoy and remember that every story has an end but in life, every end is a new beginning.
