**LITTLE STAR**

Little star was a real fool,
She tried to write with a tool.
She ate her porridge,
In a storage.
She sat in a plane,
And thought it was a train.

She tried to watch,
Time in a torch.
She tried to fly, high in the sky.
And settled in a home,
That was near Rome.
She tried to swing,
By a bird’s wing.
And when she heard that she might fail,
She went to buy things from the sale.
Little star was really a big fool.
When she tried to write with a tool.

**CHILD LABOUR**

All children are loved by their parents. But many poor parents are unable to earn enough for themselves and their children.

They are compelled by circumstances to send away their little children to go and fend for themselves. These poor little children have to work in hostels, shops, offices and houses of rich people as servants. A large number of children are doing labour instead of going to school. Still, the problem does not seem to be anywhere near solution. The reality is that the people who are extremely poor think it better for their children to do labour than to go to school. Unless efforts are made to bring awareness among these poor people, problem of child labour may not easily be solved.

Sometimes you get angry,
Because I’m so small.
And always leave my fingerprints,
On furniture and walls.
But everyday I’m growing,
I’ll be grown up one day.
And all those tiny hand prints,
Will fade away.
So here’s the final hand print,
So that you can recall.
Exactly how my hands looked.
When I was very small.

Always keep in mind “Good leaders are good readers’. To become a successful student, you must follow a good study routine. Successful kids follow many good habits. Some superior study practices for blooming kids are:

1) Try not to read too much at a time.
2) Map specific time for studying.
3) Study at the same time each day.
4) Set objectives for your study hours.
5) Begin to study at the scheduled time.
6) Keep concentration during your hours of study.
7) Don’t hesitate to ask for friends’ help with a difficult assignment.
8) Review your work over the weekend.

STATE VIOLENCE

When a state is in jeopardy and has mishandled affairs,
It has nightmares.
Nobody is there to take care of it,
And it’s all crap.
Everybody was happy and gay,

But these politicians made us pay.
Food is not enough for two square meals,
I don’t know what they feel.
We have to tell them their days are numbered,
And their activities are outnumbered,
They have to be beaten hard with a stick,
Or sometimes hanged in the public place.
If the freedom fighters were to be alive today,
They would cry and throw their power away.
In our world, farmers and business,
Should stand beside and confide.

LIFE

Life is a precious gift from God.
In which we seem to be at even and odds.
It brings much grief,
But then, happiness comes and blows all brief.
We can’t bear all the gears
And sometimes shed many tears.
We all do our part and exit
As we all know,
After entry, there’s no exit,
There are many barriers,
Over which we have to jump,
and make our career.
What this life is all about,
It has itself cleared its doubt.
The one who gets through all the tests can only,
Get the life’s best.

My school is the best,
It is like a beautiful
Knowledge packed chest.
We learn discipline

And good manners here.
A better school than this
Will be found nowhere.
Studying in this school
How proud I feel.
If you see OPJMS
No other school will appeal.

Oh! Loving creature!
Do you love your nature?
Nature is so calm,
Nature never harms.

It is so cute,
It is so mute,
But its beauty speaks,
And has no peaks.

Nature is our mother,
Nature is our brother,
Nature is our friend,
With whom maximum time we spend.

Nature is good,
Nature is never rude,
So let us all love and care,
For our lovely nature.

SEE AND ENJOY THE BEAUTY OF FLOWERS

Green, Blue, Violet and Red flowers,
Look as if nature has taken a heavenly shower.
Spirit is lifted yours and ours,
To heal the mind they smell so nice,
See and enjoy the beauty of flowers.
They decorate mother earth like a beautiful dress,
With devotion if offered even the gods they can impress.
In a garden, heavens come down to bless,
See and enjoy the beauty of flowers.

HAPPINESS

Look who is coming,
Oh! It’s the light of hope.
Look what is going,
Yeah, its’ the symbol of hate.
So let’s open the gate,
and welcome the light of hope,
Tell me what it is,
Oh yes! It is Deepawali.
Light is as yellow as gold,
Its happiness cannot be sold,
Let’s distribute it,
Let’s share it,
And it will be doubled.

A girl lost her way
On a stormy day
What she did was, cry
And we all know, why
Nearby she saw a house
Inside was a scary mouse

A girl lost her way
On a stormy day
She was in a sad mood
And also wanted some food
Her mind was thinking no good
Only of the fire from the wood.

A girl lost her way
On a stormy day
After some time it grew cold
And the girl was no more bold
She thought about sweaters she could wear
She really needed some care.

A girl lost her way
On a stormy day
There’s something I forgot,
If I speak that, you’ll say WHAT!
Oh! It was just a dream.
Which I told you while eating my fruit cream.

Divya Godara

A girl lost her way
On a stormy day
Would like to be a teacher
But I am too young for it
I could take part in a baby contest
But I am too tall for it.
I could even become a Sumo Wrestler
But I am too thin for it.
But I am my parents’ darling
I know I am just right for it.

It was a much awaited day for my gang, the group leader being my class teacher. We assembled in the school at 5:15 a.m. on 6th November 2014. After taking our seats in bus -1, we started our Jaipur Trip at 6:10 a.m. Enjoying the scenic beauty, dancing to the latest Bollywood songs and playing trump cards, the journey seemed too short. We reached our hotel at around 3:30 p.m. We, three friends, shared one room. After getting refreshed up, we boarded our bus and reached Chokhi Dhani at around 8:00 p.m. It was an exciting moment to enjoy such fun-filled activities. We did so many things, including rides and dancing with the Kalbelia dancers. We got typical Rajasthani food in dinner. We came back at 12 a.m. to our hotel. We were so tired that we went off to sleep instantly. The next day was another hectic and fun-filled day, which was to enrich our knowledge of history of Rajasthan. We went to Amber Fort, City palace and Jantar Mantar. The guide told us everything about the palace and observatory.

We also did shopping for our dear ones. The third and the final day came too quickly. We left our hotel at 9:00 a.m. First we went to Birla temple and then to Birla Planetarium. Around 12:00 p.m. we started our return journey. I was happy to go back home but the time spent with my friends will be cherished forever. I wished if the trip could be extended by a day or two. We enjoyed a lot. It was an adventurous and knowledgeable trip. On the whole, it was a great experience.

Our Earth is becoming warmer and warmer due to human activities. The average temperature has increased by 0.87°C. It is likely to increase by 3.5°C by the end of the year 2050 according to I.P.C.C report 2012. This increase in temperature is due to emission of greenhouse gases like carbon-dioxide and Methane. The level of carbon dioxide has increased by 0.03 percent in the atmosphere during the last 50 years. The growth in urbanization, transportation, deforestation and industrialization is the major cause for the increase in temperature of the atmosphere. The increase in temperature has resulted in disasters like droughts, famines, floods, cloudburst, cyclones etc. We have recently seen heavy flood in Kashmir, Hud-Hud cyclone in Andhra Pradesh and Orissa and cloud burst in Uttarakhand.

These are the sudden unexpected weather changes which are a major threat to human beings and other living organisms. In order to minimize the emission of greenhouse gases we should increase our forest area by planting trees on a large scale. We should stop deforestation. The children should take part in events like Van Mahotsav. We should use public transport like bus instead of using individual vehicles. This will help in reducing global warming and in turn will be helpful in the survival of all living beings.

Gandhi’s observation holds great importance in today’s India. Mahatma Gandhi spoke about a problem which has been plaguing our nation for decades. The answer to the question he had asked almost a century back stares in our face. From streets, public offices, temples to national heritage sites and water bodies, we are not free from filth.

On India’s 67th Independence day, India’s Prime Minister, Shri Narendra Modi, not only touched upon eradicating poverty and economic development but also stressed on the need of creating ‘Swach Bharat’, clean India. Education will be vital if Modi is to change age old attitude towards hygiene and purity. Modi mants every home and school to have access to a toilet by 2019, in time for the 150th anniversary of Gandhiji.
English is the universal language. With the mere knowledge of English, many have reached great heights. Aren’t you interested in knowing some amazing facts of this language?

Most commonly used vowel is ‘E’.
- Most commonly used consonant is ‘R’

The brightest thing is sun.
I like the bun.
Playing time will be fun.
When my homework is finished.
I say my homework is done.
In the church, there is a nun
The policeman has a gun.
The elephant weighs in ton.
I like to run.

Once there were numbers 0 and 9. 9 was the richest and the biggest number. 8,7,6,5,4,3,2 also did not possess such things as 9 had. 0 and 1 were the smallest and poorest numbers. Everyone teased and made fun of them. They did not have big rooms and good things. They became sad and wanted to make friends. One day 0 and 1 joined their hands and became friends. Now they were the biggest number 10. Now everyone was united.

You are the sunlight in my day,
You are the moon I see far away.
You are the tree I lean upon,
You are the one that makes trouble be gone.
You are the one, who taught me lessons of life,
How not to fight and what is right.
You are the words of my song,
You are my love, my life, my mom.
I’m blessed for god sent you from above.
You are my friend, my heart, and my soul.
You are the greatest friend. I know,
You are the words of my song.
You are my love, my life, my mom.

Time is money
As sweet as honey
Time is Priceless
Its wastage is senseless.
Time is useful
So be careful.

Every second is valuable
Its usage is profitable
Time doesn’t wait for anyone
So be punctual everyone!
