

## THE SUN AND THE MOON

The sun rises at nine  
with blazing light  
with sun above bright  
The sun says earth is mine.

The sun always says he is fine  
it sets at night  
The sun's schedule is really tight  
but everyday sun shines.

The sun's brother moon comes at nine  
Sun and moon always fight  
To know who gives more light  
The fight continues till next nine.

They both come every day yet  
They get angry when they met.
